I. Background and Definitions

The virus that causes Coronavirus Disease 2019 (“COVID-19”) is easily transmitted between individuals and can be transmitted even by persons who do not appear to have any symptoms of the disease. Group settings provide optimal conditions for transmittal.

The first Health Order in response to COVID-19 (Health Order 01-20) was issued on March 20, 2020 in light of the existence of over 1,376 confirmed cases of COVID-19 in the State of Washington, as well as at least 74 deaths due to the disease. The Makah Tribal Council has issued subsequent Health Orders 02-20 on June 8, 2020, 03-20 on July 8, 2020, 04-20 on September 24, 2020, 05-20 on October 14, 2020, 06-20 on November 16, 2020, 07-20 on November 18, 2020, 08-20 on December 4, 2020, 09-20 on December 15, 2020, 01-21 on January 8, 2021 and 02-21 on February 16, 2021 and 03-21 on March 22, 2021. As of June 30, 2021, there now exist over 452,072 confirmed and probable cases in Washington State, including 1,446 cases in Clallam County and 13 cases on the Makah Reservation, and at least 5,938 deaths in Washington State.

The Makah Tribal Council recognizes the need to preserve life and protect all members of the community on the Makah Reservation, especially our members most vulnerable to experiencing serious illness (i.e. seniors aged 60 and older and persons with underlying conditions). Because of the rapid spread of the virus, it is necessary to proactively enforce modifications in community and social behaviors to prevent

unnecessary death.
