**JOB TITLE: Technician II (Water Quality)**

---

<b>EXEMPT:</b> No	<b>JOB CODE:</b> 4-TS T4
<b>TARGET SALARY:</b> \$12.70 to \$14.94/DOQ	<b>SHIFT:</b> 8 am-5 pm
<b>PROGRAM:</b> Fisheries	<b>LOCATION:</b> Bldg. 15
<b>REPORTS TO:</b> Water Quality Specialist	

---

**SUMMARY:** Assists the Water Quality Specialist in conducting water quality field monitoring and implementation the BEACH program. Duties include collecting and transporting marine samples, collecting and analyzing data, submitting data to EPA, managing local BEACH databases, and submitting yearly program reports and grant applications.

**ESSENTIAL DUTIES AND RESPONSIBILITIES** including the following: Because of the Tribe's commitment to community service and the well-being of its members, each employee may be expected to perform a wide range of office and field duties from time to time. Such duties may or may not be related to their regular responsibilities.

Offer general support for all Water Quality field activities, data collection, and reporting. Many of the following activities will be done cooperatively with the Water Quality Specialist; however, the ability to carry out these duties independently in certain situations will be mandatory.

Conduct water quality monitoring activities accurately, timely and in accordance with the program's Quality Assurance Project Plan.

Calibrate water quality equipment; record results, report and problem solve equipment malfunctions.

Skillfully collect undamaged shellfish tissue samples and send to Washington Department of Health for Analysis.

Develop and distribute public communication materials regarding water quality issues and closures in paper and digital form.

Work under the direction of the Water Quality Specialist to implement the Makah Beach Monitoring Program and its following components: Sampling and Analysis Plan, Quality Assurance Project Plan, Data Management Plan, Reporting and Notification Plan and Training Plan.

Collect, certify, and deliver water samples from local beaches to Clallam County Lab and submit field data to Washington State database.

Review lab test results and determine if retesting is necessary.

Collaborate with local, county, and state agencies to determine if a beach notification or closure is necessary.

Investigate possible sources of pollution and work with Environmental staff to take remedial actions.

Work with the Water Quality Specialist to implement and oversee the completion of BEACH grant objectives and requirements.

Manage local BEACH Access-based databases which contain water samples results, field , data and closure/notification data.

Format and submit Monitoring and Notification database reports in to XML documents for online submission to WQX, PRAWN, and BEACON databases.

Assist the Water Quality Specialist in coordinating conference calls with various Federal, State, contracting, and non-profit organizations. Take accurate notes for future reference and contribute to discussion at hand.

Advertise, grade, and select contractor for professional consulting services.

Work with the Water Quality Specialist to achieve outreach and education goals for both general Water Quality and BEACH Programs.

Complete annual BEACH Grant and submit for review and approval.

Complete annual Beach Pollution Sources Surveys on a yearly basis for the Makah beaches.

Update the Makah Water Quality website, making sampling data available to Public.

Required to edit and update the Makah Water Quality website, making sampling data available to the public.
